

I'm Suresh

Gopal >>

With a passionate approach to design and a worldview shaped by art and empathy, I firmly believe in the transformative power of design to shift perspectives. As a UX designer, I strive to strike the perfect balance between creativity and meeting user needs, ensuring impactful and user-centric solutions.

Education

2017 - 2019

Higher Secondary Education

S.M.R.V. High School,
Nagercoil

2019 - 2022

Bachelors of Science in Multimedia

Image Institute of Technology,
Chennai

UX Designer

**Propel Technology
Group Inc**

Marketing posters

Sep 2022...

- I collaborate with Business Analysts to understand internal and client requirements. My expertise includes information architecture, wireframing, workflow documentation, prototyping, designing component sets, and finalizing workflow documentation once wireframes are approved.
- I successfully designed a dashboard for a leading US antenna manufacturer, which resulted in a 30% increase in annual product sales after implementation.
- I designed a distinctive mobile app for a U.S. company that manufactures object-finding devices, creating an effective solution for data collection from their devices.
- Designed a doctor consulting and booking app for a prominent group in Qatar and documented the workflow processes.
